

## Liver disease

### Definition

The term "liver disease" applies to many conditions that stop the liver from working or prevent it from functioning well. Abdominal pain, yellowing of the skin or eyes (jaundice), or abnormal results of liver function tests may suggest you have liver disease.

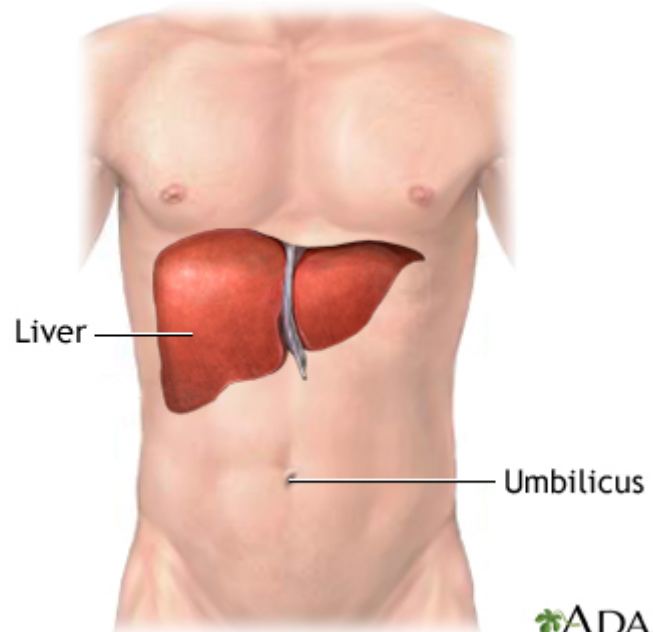

Related topics include:

- Alpha-1 anti-trypsin deficiency
- Amebic liver abscess
- Autoimmune hepatitis
- Biliary atresia
- Cirrhosis
- Coccidioidomycosis
- Delta virus (hepatitis D)
- Drug-induced cholestasis
- Nonalcoholic fatty liver disease
- Hemochromatosis
- Hepatitis A
- Hepatitis B
- Hepatitis C
- Hepatocellular carcinoma
- Liver disease due to alcohol
- Primary biliary cirrhosis
- Pyogenic liver abscess
- Reye syndrome
- Sclerosing cholangitis
- Wilson disease

Cirrhosis of the liver
